

PARTIAL REPORT
ON STEEL TRUSTFindings of Herbert Knox Smith
Are Made Public.

MAKES NO RECOMMENDATIONS

Commissioner of Corporations Declares That Restriction of Competition Was a Prime Object of the Organization of the Steel Corporation. Constant Reinvestment of Earnings Has Eliminated Much "Water" From the Stock.

Washington, July 1.—The long expected and much discussed report from the bureau of corporations on the United States Steel corporation, recently submitted to President Taft, was made public here.

Signed by Herbert Knox Smith, commissioner of corporations, the report makes no recommendations and is almost wholly narrative in form.

Mr. Smith declares that restriction of competition was a prime object of the organization of the steel corporation, or so called "trust."

Capitalized at \$1,402,000,000 the corporation, he asserts, had tangible property worth only \$682,000,000. By a constant reinvestment of earnings, however, the report points out, much of the "water" in the company has been eliminated.

The steel corporation now owns 10 per cent of the lake ores, having recently concentrated its efforts to securing these properties. On this point the report says:

"Indeed, in so far as the steel corporation's position in entire iron and steel industries is of monopolistic character, it is chiefly through its control of ore holdings and the transportation of ore."

In his letter of transmittal to the president the commissioner covers in condensed style practically every feature of the report.

The principal features of Commissioner Smith's report on the steel industry are:

Features of the Report.

The marked development of consolidation, culminating in the organization of the United States Steel corporation. Capitalization by the United States Steel corporation far in excess of property values. The bureau's valuation of the tangible assets in 1901 is \$682,000,000, as against \$1,400,000,000 of issued securities.

An analysis of the cost of the subsequent additions to the property of the corporation, showing a total investment in tangible property on Dec. 31, 1910, of \$1,187,000,000, as against \$1,468,000,000 outstanding securities. An average rate of profit from 1911 to 1910 on the corporation's actual investment, as computed by the bureau, of 12 per cent.

An almost continuous decrease in the corporation's proportion of the output of principal steel products, but a marked increase in its ownership or control of iron ore deposits.

The bureau places the value of the ore reserves of the corporation at \$100,000,000, while the corporation itself places their value at \$700,000,000.

To prevent ore from falling into the hands of independent producers or to prevent the Hill interests from founding a rival steel business the corporation granted to the Great Northern road the Hill leases which guarantee the largest royalties ever known in the ore business.

The corporation controls 75 per cent of the available ore and because of this and its control of the transportation facilities in the ore district occupies a commanding position in the steel industry.

SHORT MORE THAN \$21,000

County Attorney Talks of Minnesota University Funds.

Minneapolis, July 1.—That Joseph D. Bren, former treasurer of the University of Minnesota, is short in his accounts more than \$21,000, mostly accounted for, was the statement of James Robertson, county attorney of Hennepin county, following the testimony of John Brady, an expert accountant, before a subcommittee of the grand jury.

The committee is making an exhaustive inquiry into the status of the university finances. Aside from probing into the alleged embezzlement of funds by Bren the grand jury wants to know how the regents have handled the funds for years back.

Cook Still Has Hopes.

Chicago, July 1.—Dr. Frederick A. Cook returned to Chicago, announced that he was sure he had discovered the pole and said he would be vindicated. He said he was to lecture four weeks and was scheduled to address the International Geographical congress in Rome in two months.

Simpson Gets Golf Title.

Grand Rapids, Mich., July 1.—Robert Simpson of Kenosha, Wis., winner of the Western open golf championship at the Hinsdale club, Chicago, in 1907, is again the possessor of the title. Under a broiling sun and a course faster than at any previous time this week he defeated Thomas McNamara of Boston, 2 up and 11 holes.

HERBERT KNOX SMITH.

His Report on United States Steel Corporation Made Public.

CUSTOMS MEN SEIZE FURS

New York Firm Charged With Defrauding Government.

New York, July 1.—Imported furs to the value of \$150,000 were seized by customs officials, who raided the establishment of Charles Weinscheker & Co. The firm is charged with defrauding the government of duties by alleged undervaluations.

It is composed of Charles and Jacob Weinscheker and Max Tamarkin, the last two having headquarters in Leipzig, Germany. None of the firm is now in the city, employees said.

FEDERAL FINANCES
IN GOOD CONDITION

Treasury Has Cash Surplus of
at Least \$33,000,000.

Washington, July 1.—When the government's fiscal year of 1911 closed the federal treasury held a cash surplus of at least \$33,000,000 and showed an excess of all receipts over all disbursements for the first time since 1907.

While revised returns will not be available for several days it is apparent that the government during the last twelve months received from all sources not less than \$689,000,000, about \$10,000,000 more than was expected, and spent \$656,000,000, about \$6,000,000 less than was planned.

For the first time income from internal revenue and customs was nearly equal. While customs receipts for the year fell off \$20,000,000 and will stand at about \$312,000,000 the internal revenue promises to total \$215,000,000, the greatest sum ever collected from that source, passing the record breaking figures of 1866.

Four causes have contributed to the great increase in the internal revenue. The corporation tax is responsible for \$28,000,000, whiskey and other spirits \$155,000,000, tobacco \$62,000,000 and beer \$61,000,000.

In round figures it cost the government for the last year \$175,000,000 for the civil service, \$161,000,000 for the army, \$120,000,000 for the navy, \$21,000,000 for the Indians, \$158,000,000 for pensions and \$21,000,000 for interest on the public debt. Expenditures for Indians, pensions and civil service all have slightly exceeded the first estimates. More than \$37,000,000 was spent upon the Panama canal.

The government's expenditures have been \$3,000,000 less in 1911 than in 1910, although they have exceeded those of 1906, 1907 and 1908. Receipts have been \$13,000,000 greater than in 1910.

The federal treasury enters the fiscal year 1912 with more than \$180,000,000 in cash stacked away in the steel ribbed vaults, the largest sum ever held there.

TWO SQUAWS GET DIVORCES

One Is Convict's Wife; Other Beaten by Spouse.

Devils Lake, N. D., July 1.—Murder and wife beating are not looked upon with favor by Indian squaws of the Fort Totten reservation and that fact is aptly demonstrated in the district court of Ramsey county, where Judge Cowan granted divorces to two squaws because of complaints based on such charges.

Wasummuwin (Walking in the Hall), wife of Isadore Mazakahon (Whirling Iron), secured a divorce because he was convicted and sent to the state's prison for twenty-five years for murder.

Maggie Jones, another Indian woman, gained a divorce because her husband beat her. He is now serving a sentence in the Minnewaukan jail for such an offense.

TWO IRON RANGE MEN KILLED

Sit Too Close to Track and Train Hits Them.

Duluth, June 30.—Two men were killed by a southbound extra on the Iron Range road near Athens. One is said to be Jacob Rantella of Embarrass. The other man was unidentified. The men were sitting too close to the track and disregarded the warnings of the engine's whistle and bell. Rantella leaves a family.

NO CHANGES IN
CANADIAN BILL

Democrats Will Not Amend the
Reciprocity Measure.

AFTER NEWSPAPER SUPPORT.

For This Reason They Will Not Accept Offer of Insurgents to Load the Legislation With Downward Revision. Senator Nelson Says Best Plan Is to Be Candid With All.

By ARTHUR W. DUNN.

Washington, July 1.—[Special.]—The Canadian reciprocity bill will not be amended by Democratic votes. While the offer of the insurgents to load the bill with general downward revision is alluring, and there might be some political advantage gained by "putting it up to Taft" to sign or veto such a measure, there is better politics in keeping the measure unamended and making sure that it will become a law.

Here is the reason: At present the newspapers are with the men who are putting through the reciprocity agreement because it gives them what they want and what they have been asking for. Newspaper support is welcome to the Democracy. With Bryan as the party candidate the Democrats have had little newspaper support for many long years. Now the newspapers are with them, and they are not going to do anything to turn the newspapers away.

The Democrats are going to be the saviors of Canadian reciprocity, and they are not going to be beguiled into general tariff revision on the Canadian bill.

Proof Comes Out.

A few lines from two different speeches show how the newspapers figure in the Canadian legislation. "I am sorry," said Senator Nelson, a near insurgent, "to see the senator from Iowa (Cummins) pandering to the clamor of certain newspapers. The plain English is that we may fool the newspapers and the American people, but the best plan is to be candid and tell them what there is in this legislative gild brick." The Minnesota senator was referring to the pulp and paper provision in the agreement.

Only a short time before Senator Cummins had been in controversy with Senator Gallinger and expressing his opinion to the Root amendment.

"I am not here," said Cummins, "as the apologist of the newspapers. Formerly they treated me with some kindness, but any one who has seen the issues for the past few months will understand my unselfishness in what I am saying."

Cummins had been the recipient of praise from the papers, but his opposition to the Canadian agreement has brought a great deal of criticism.

And so I say the Democrats are not going to take any position in regard to that agreement which will change the attitude of the newspapers toward them.

Sure of His State.

By putting it up to the people of Oregon to elect him or some other man Jonathan Bourne shows that he either does not care much about staying in the senate or that he is sure of his state. Those who know Bourne are aware that the latter is the fact. "You couldn't beat Bourne with the best candidate running and with the privilege of spending any amount of money," was the remark of one who knows.

Good Roads Needed.

It was a bold thing for Senator Simmons to halt the tariff discussion, of which every man elected to either house of congress is so fond, and tell a few plain facts about the roads of the country. Simmons said that the loss on account of poor roads is \$300,000,000 a year, the amount which Senator Aldrich said could be saved if a business man were running the government. Good roads, according to Samuel Hill, who devotes all his time to the subject, are more important than any of the half dozen topics that continue to occupy the attention of congressmen.

Did Not Get Credit.

Congressman Payne of New York called attention to the fact that he failed to get credit for an act that became famous on account of important supreme court decisions. The insular cases, upon which the court by a 5 to 4 decision sustained the law that the United States could levy a duty on the products of islands acquired from Spain, was based on an act for the government of Porto Rico.

While it was known as the Foraker act and so referred to by the court, only a part of the law was Foraker's. That part which levied a duty of 15 per cent on the products of Porto Rico was introduced and framed by Payne as chairman of the ways and means committee and was incorporated into the Porto Rican government bill. Payne said he made no complaint at the time and mentioned it now to show that while he had suffered injustice he had not always been given justice.

Bryan's Determination.

A group of Democrats once took William J. Bryan to task for supporting the initiative and referendum. "I will drive every man out of the party who does not support a policy giving the people power in the government," he remarked grimly. He is equally determined in regard to free wool and other policies he advocates.

Capital Letters.

The systematic use of capital letters in writing and printing was not common until about the year 1430.

REED SMOOT.

Predicts Congress Will
Be Through This Month.

TEN MEN CRUSHED TO DEATH

Dozen Others Injured in Collapse of
Buffalo Pumping Station.

Buffalo, N. Y., July 1.—Ten men are dead, and a dozen are injured, several probably fatally, as the result of the collapse of the roof and other portions of the Buffalo water department's new pumping station on the lake front. It will probably be hours before those buried in the pumphouse can be reached. The city police are being aided in their rescue work by troops in the garrison nearby.

WOUNDED ROBBER IS
RELEASED ON BAIL

Reward for Turning State's Evidence Against Dr. Dumas.

Benidji, Minn., July 1.—Martin Behan, captured in the battle at Pupos on the morning of June 17, was released from the county jail on a bond signed by his wife and J. B. Meyer.

The arraignment of Behan was arranged by Fire Marshal Charles E. Keller. The bail bonds were passed upon by Thayer Bailey, who appeared for the state, and were accepted by Court Commissioner Simons, before whom the proceedings were held.

Behan, who is in the last stages of consumption, will be taken to Wisconsin by his wife and sister.

It is generally understood that his release at this time is, in a measure, a reward for having turned state's evidence, which implicated Dr. Dumas at the preliminary hearing of the mayor of Cass Lake when he was bound over to await the action of the grand jury under bonds of \$10,000. Persons representing the state do not deny this.

SAYS THE WOMAN CONFESSED

County Attorney Alleges She Told of
Killing Father.

Park Rapids, Minn., July 1.—Gena Carlton, who, with her husband, Lloyd Carlton, are charged with the murder of Peter O. Neste, father of the woman, confessed, according to the county attorney, who says he has a signed statement of the woman, in which she relates the details of the murder. Carlton is alleged to have corroborated the confession of his wife.

According to the alleged confession the couple quarreled with the aged man, killed him and after his body had lain near a chicken coop until it was frozen they dragged it into the woods and attempted to burn it.

Ironton, O., Has \$300,000 Fire.

Ironton, O., July 1.—Fire destroyed \$300,000 worth of property here when the plant of the W. G. Ward Lumber company, Allen's roller coaster factory, the Ironton tool handle factory, the separate office buildings of each of these plants, the parsonage of St. Denister Memorial Methodist Episcopal church and two other buildings were consumed, in addition to more than two million feet of lumber.

Noted Painter Is Dead.

Los Angeles, July 1.—Paul de Longpre, the noted painter of flowers, died at his home in Hollywood from a complication of diseases from which he had suffered for the last two years. De Longpre was born in Lyons, France, in 1855.

AUTOMOBILE TURNS TURTLE

One Man Instantly Killed and Three
Persons Injured.

New York, July 1.—Charles S. Humphries was instantly killed, Henry Wilcox of West Brighton, N. Y., a student at Harvard, was mortally injured, and two women, one of whom was young Humphries' mother, were severely hurt when the automobile in which they were riding turned turtle near Annadale, N. Y.

Mrs. Humphries, who is fifty years old, received four broken ribs. Miss A. Locke, the fourth occupant of the car, suffered a fracture of the right leg and is severely cut and bruised.

CATHOLIC CO-ED COLLEGE

One in Chicago Is to Be Followed by
Others Elsewhere.

Chicago, July 1.—Following an announcement that the Catholic university at Washington will henceforth open its doors to women it was stated here that Sisters of Charity of the Blessed Virgin have completed plans for a big co-educational college in this city.

The departure is said to be the most radical ever made by Catholic educators. Furthermore, it is intended eventually to start many other colleges in various parts of the country.

Archbishop O'Connor Dies.

Toronto, Ont., July 1.—Archbishop Denis O'Connor of the Roman Catholic archdiocese of Toronto, is dead, aged seventy, at St. Basil's Novitiate. He retired from his office three years ago owing to ill health, being succeeded by Archbishop McEvary. Upon the death of the latter Archbishop O'Connor resumed the administration of the office pending the appointment of a successor.

Decapitated Under Train.

Waterloo, Ia., June 30.—While attempting to cross the Illinois Central tracks ahead of a switching freight train James McEnroe, a painter, aged forty-eight, was decapitated.

Chicago Lumberman Undergoes
Severe Cross-Examination.

BOTH SIDES SEEM PLEASED

Senator Lorimer's Friends and Opponents Express Satisfaction With the Result of the Cross-Examination. Witness Insists Senator Aldrich Told Him President Taft Would Do Anything Possible to Assist Lorimer's Election.

Washington, July 1.—For five hours Edward Hines, the wealthy Chicago lumberman whose name has been connected with an alleged Lorimer election fund, underwent cross-examination before the senate Lorimer committee as to his part in the election. When the committee adjourned the witness was told that his two-day ordeal was ended.

Both Senator Lorimer's friends and opponents expressed satisfaction with the result of the cross-examination. Attorney John H. Marble, who conducted it for the committee, announced that he would follow out all leads which had been suggested to him, "always with a view of getting at the truth and not to persecute any one."

Time and again, up to the hour of adjournment, the witness was asked if he might not have made a mistake about Senator Aldrich having told him that President Taft would do anything possible to assist Lorimer's election. "Were Senator Aldrich's words so plain that you could not be mistaken?" insisted Mr. Marble.

Could Not Have Been Mistaken. "It was impossible for me to have been mistaken, because I put the substance of what he said in a telegram, which I have," replied the witness.

The conflicting testimony between Wiehe at Springfield and the witness came out in connection with Hines sending C. H. Wiehe, his brother-in-law, to a hotel in Chicago to get W. H. Cook to stop talking about the famous telephone conversation Hines held from Cook's room, in which Cook said Hines spoke about taking money to Springfield to assist Lorimer in his fight for the senatorship. Hines said he wanted the talk stopped because it would be embarrassing to have the state's attorney get hold of the conversation. Wiehe testified that he was to see both Cook and his associate, O'Brien, while Hines said he was merely to see Cook.

There was a long cross-examination regarding the Union League club conversation in 1909 at which Funk charged that Hines asked him to contribute \$10,000 to a \$100,000 Lorimer election fund and at which Hines said Funk asked for the privilege of contributing to Lorimer's election fund.

The witness described minutely how Funk took hold of Hines' elbow, maintaining that position three-fourth of the way to the door.

GAMBLE RAPS RECIPROCITY

South Dakota Senator Says It Will
Injure Farmers.

Washington, July 1.—Senator Gamble of South Dakota delivered a speech against the Canadian reciprocity bill on the floor of the senate. He assailed the pact as inconsistent with the Republican doctrine of protection and a measure which would strike "a serious and unwarranted blow" at the American farmer. Discussing it in these aspects, and also as a step in alienating the agricultural vote from the Republican party, he declared that he could not vote for its enactment or ratification.

Senator Gamble mildly rapped the legislation for initiating the reciprocity president without first consulting with the senate and he charged that an "unrelenting press" had fomented agitation, one of the fruits of which was the Canadian tariff agreement.

CHICAGO GIRL GERM CARRIER

She Suffered From Typhoid Three
Years Ago.

Chicago, July 1.—Because a girl who had typhoid three years ago was allowed to wash milk cans on her father's farm there is an epidemic of the fever in Englewood. Thirty-four persons taking milk from the girl's father are ill.

The girl, Rose Hoersma, seems perfectly healthy, but has been ordered to a hospital. She is what is known as a "carrier" of germs.

The longest instance of "carrying" is said to have been found at Washington, D. C., where the victim carried the germs for eighteen years.

Four Regiments to Withdraw.

Washington, July 1.—After a talk with Secretary of War Sutherland and Major General Wood, chief of staff of the army, President Taft authorized the withdrawal of four regiments from the maneuver division now at San Antonio, Tex., within the next thirty days. Several regiments will be left in Texas perhaps all summer.

SATURDAY, JULY 1, 1911.

A Chicago court hands out the
opinion that a man ought not to wed
if he cannot cook. How about the
bride.

The McClure will case has been de-
cided in favor of the defendant and
the decision of the court is that no
undue influence was brought to bear
on the St. Cloud man.

Even the sale of oleomargarine col-
ored to imitate butter is now pro-
hibited, and your rubber tires have
to have the makers name on together
with the date of manufacture.

It will be necessary to pay three
cents a mile from now on or walk.
If your friend has an auto you may
yet succeed in keeping the railroad
from getting that extra cent a mile.

Blind pigs will not be allowed to
sell malt in the future, the law re-
gulating the sale of the beverage in
any place but a licensed drinking
place became operative July 1st, and
it is the greatest body blow ever dealt
the sightless swine.

Either Doctor Dumas is a past mas-
ter in the art of acting or the au-

thorities have caged the wrong bird.
The defense has not showed its hand
while the state has produced most
damaging evidence and some of the
most intimate friends of the accused
man are wavering in their judgment.
The expose is one of the most start-
ling in the history of Northern Min-
nesota.

If reports are true that Senator
Clapp expects to carry Minnesota for
Senator LaFollett and expects to se-
cure the delegation for him from this
state in the coming presidential con-
test he has evidently great confidence
in his ability, in fact more than the
circumstances would warrant. There
is no pronounced sentiment against
President Taft among the republicans
of this state, in fact he has grown
in confidence of the people and is
much stronger, not only in this
section but in the entire west, than
he was a year or so ago. His atti-
tude and championship of the
Canadian reciprocity have strengthened
him and where there seemed to be
murmurs of distrust there are now
exclamations of praise and there is
no reason why the state of Minne-
sota will not send a solid delegation
in his favor to the next national con-
vention. As far as Senator Clapp is
concerned he has a perfect right to
his own views and opinions but if he
has presumed to assume that his re-
publican friends will follow him in
his pronounced friendship and de-
claration for LaFollett for president
he has reckoned without his host.
We do not believe he has.

TWO ACCIDENTS OCCUR FRIDAY

The N. P. Road Has Two Trains
Ditched on Same
Division

THERE WAS NO ONE INJURED

But the Delay Incident Occasioned
Very Much Inconvenience
to the Passengers

The Minneapolis train which usually arrives here at 1:25 in the afternoon, arrived at 8 o'clock last night, leaving for the north at 8:30. From those who were on board the cause of the long delay, they said, was owing to two wrecks, but neither one bringing injury to any person on both trains.

It appears that the Brainerd train left St. Paul rather late yesterday morning and was further delayed on arriving in Minneapolis owing to an extra crowd and the adding of another car to care for the large number of passengers. The train was detained still longer for some reason just outside of Minneapolis. Things went well until it arrived at Dayton, a small station south of Elk River, but in going on the side track to allow the flyer to pass, three of the cars became derailed, among them Mr. Gemmell's private car. Quite a commotion took place notwithstanding the wreck occurred on the side track, owing to the crowded condition of the cars. All left the train at Dayton to await the wrecker or another train, but after several hours nothing arrived to relieve them and the intense heat made things mighty uncomfortable, Dayton being too small a village to care for the large crowd on the Brainerd bound train.

After a long while the passengers were informed that the flyer was wrecked between St. Cloud and Elk River, and it would be a matter of five or six hours before a relief train would be sent to their assistance. When this truth was learned a large number asked that they be taken to Elk River that food might be had and relief given from the intense heat prevailing. This was done but the town of Elk River being unprepared to supply in restaurant haste the eating capacity of the wrecked crowd, quite a scrambling took place to get food to supply the hungry multitude. One of the passengers said it was a sight to notice the crowd, some going to hotels, others to the restaurant, and yet others who flocked to the stores for biscuits, cheese and canned fruits and meats. Notwithstanding the boiling heat of the day, the long delay and other things, the belated crowd kept good natured, quite a few excited people came hurriedly to the depot yesterday afternoon where it became known that a wreck had taken place. One of the largest crowds of the season was on hand all yesterday afternoon to take the train north, and mothers with their babies and children found the Northern Pacific park by the depot a veritable oasis with its green grass and cool water.

Better Fire Protection

The Slipp-Gruenhagen firm is busy at work changing the water hydrants in the business centers of the city just at present. The water and light board of the city ordered some time ago that there be placed a more modern hydrant to protect the valuable city property in the business district and to this end they are putting in at the corner of Broadway and Laurel, Seventh and Laurel, and Fifth and Front, a hydrant to which can be attached a fire engine which will greatly reduce the danger of devastation by fire. Brainerd is putting up buildings of size and value that are worth protecting by the best systems of fire fighting.

Two Weeks Tour

Dr. J. A. Thabes, wife, son and parents, and Dr. J. L. Frederick, wife and mother, each in their own automobiles, left at 5 this morning for Minneapolis. They expected to reach St. Paul not later than two today, staying over in the twin cities for the Sabbath, and on Monday taking an automobile trip for two weeks in parts of Minnesota and Wisconsin. The Rev. P. G. Sheridan accompanied them to Minneapolis.

THE WALL PAPER QUESTION

Always requires important consideration for those who take pride in the home beautiful. Color effects, contrasts and harmonious, can make or mar the pleasure of your home. A selection of patterns from the elegant stock of papers carried by J. H. NOBLE, 716 Front St., cannot but help you in deciding right. Estimates furnished for painting and paperhanging. Phone 250.

BAND CONCERT FINE

Wednesday Night's Concert By
Brainerd City Band Very
Very Enjoyable

Owing to lack of space comment on the band concert on Wednesday evening was omitted, but the band played better than ever. Despite the threatening rain and the chilliness of the weather a vast concourse of citizens was on hand and heartily appreciated the fine program rendered. The band force on Wednesday evening was augmented by the presence of Messrs. Graham, Peterson, Bartsch and Sykora, with Dr. Sykora swaying the baton.

The band boys have certainly been putting in some practice since their public work last summer, this being most noticeable in their work on Wednesday evening. The band was never better balanced and it sounded more like a military band than that of musicians taken from the various walks of life and shows to what perfection a set of musicians can be brought to by systematic practice. Great credit is due the leader of the band.

It has been suggested by those other than the business men, that before the season is over that the citizens of Brainerd have a tag day for the organization. Heretofore it has been largely the business men who have stood by the band, but it is now suggested that in the future the citizens as well have a chance to show their appreciation in a practical way. This thought comes from quite a number of men with whom the Dispatch reporter had conversation.

Kill More Than Wild Beasts

The number of people killed yearly by wild beasts don't approach the vast number killed by disease germs. No life is safe from their attacks. They're in air, water, dust, even food. But grand protection is afforded by Electric Bitters, which destroy and expel these deadly disease germs from the system. That's why chills, fever and ague, all malarial and many blood diseases yield promptly to this wonderful blood purifier. Try them, and enjoy the glorious health and new strength they'll give you. Money back, if not satisfied. Only 50c at all druggists. ttw

A Great Ball Game

The double header baseball game to be played here on July 4th, is creating a great deal of comment and will evidently be one of the great ball games of the season. The semi professional players from Duluth, the Fitwells, are reputed to be on the fastest teams in Minnesota, and from reports have a paid battery to look after their end of the game, and such teams are generally padded with pick-ups from everywhere when they come to a city like Brainerd. The Brewsters, however, will not be found napping when the games are called. They are putting in some very stiff practice every night and know that they are not going to have a walk away. The games are to be called at 10:00 in the morning and at three in the afternoon. The grounds are being put into fine condition, the turf being removed, and a grandstand with a seating capacity of 500 is nearly completed. The Brewsters will have about the same line-up as heretofore, and are determined to play the game of their lives.

Farm For Rent

200 acres of hay and grain and pasture. Hay ready to cut. See me at farm, section 8, Long Lake town, four miles out. J. E. Myers. 2412-wit

Escaped With His Life

"Twenty-one years ago I faced an awful death," writes H. B. Martin, Port Harrelson, S. C. "Doctors said I had consumption and the dreadful cough I had looked like it, sure enough. I tried everything, I could hear of, for my cough, and was under the treatment of the best doctor in Georgetown, S. C., for a year, but could get no relief. A friend advised me to try Dr. King's New Discovery. I did so, and was completely cured. I feel that I owe my life to this great throat and lung cure." Its positively guaranteed for coughs, colds, and all bronchial affections. 50c & \$1.00. Trial bottle free at all druggists. ttw

NOTED PREACHER HERE

An Eminent Devine of Sweden is in the City and Will Preach Here Tomorrow

The Rev. John Johanson, of Stockholm, Sweden, is a visitor in the city, and is now visiting with a brother of his who is residing on Oak street. The reverend gentleman will occupy the pulpit of the Swedish Baptist church tomorrow morning and evening. The report is that he is one of the most eloquent preachers in Stockholm, and undoubtedly will have a large audience to greet him tomorrow.

A Peek Into His Pocket

would show the box of Bucklen's Arnica Salve that E. S. Loper, a carpenter, of Marilla, N. Y., always carries. "I have never had a cut wound bruise or sore it would not soon heal," he writes. Greatest healer of burns, boils, scalds, chapped hands and lips, fever sores, skin eruptions, eczema, corns and piles. 25c at all druggists.

ANOTHER BODY OF ORE IS FOUND

Most Important Ore Find For Brainerd Has Just Been Made

IS WITHIN THE CITY LIMITS

Further Drilling It is Believed, Will Show Up Much More Ore

Still another piece of good news relative to the iron ore bodies in close proximity to the city, in fact, within the city limits, is just announced. The Martin Exploration Co., the company consisting of a large number of men, including several Brainerd parties, has the Duluth Diamond Drilling company at work drilling holes in blocks 7 to 12, near 13th street. The same company has two drills at work on the Rosko farm, near to the Neimeyer 40, which, upon drilling six years ago, made a showing of merchantable iron ore of about four hundred thousand tons. The company is positive that nearby are still large bodies of iron ore and are about to employ other drilling firms to thoroughly drill several properties which show good attraction. It is the general opinion of the members of the Martin Exploration company that ultimately a shaft will be sunk in the near future after they have sufficiently located the ore bodies.

ENLARGES BUSINESS PLACE

Fred Luken Buys Adjacent Store Room to Expand His Business

That there is a future beyond expectations for Brainerd in a business way as well as others, has been seen of late in the way in which heavy property owners in the business section of the city have been enlarging the places of business or placing more substantial buildings on their old sites. Fred Luken, owner of the well known "Fair", so well known in the city and county, has added his name to the list of property owners who are willing to show their belief in Brainerd's future in a practical way. For several years Mr. Luken has found that his business quarters are too small to accommodate his large stock of growing business and has recently purchased the store next to his and will commence immediately to renovate it. The store recently purchased by Mr. Luken, is 712, adjoining his present place of business, and already plans have been started by which the store will be made one. A new modern front window is to replace the old one, with steel beams above, and an arcade will lead from one store to another which will be one of the finest stores of its kind outside of the cities and equatesome there.

The place purchased by Mr. Luken is the Grossman saloon, and Mr. Grossman will remove his saloon to the Davis store which is already for occupancy.

HAVE YOU DIAMONDS

Assessment Rolls Show Some Very Peculiar Conditions. Diamonds and Dogs are Scarce

The board of equalization finds from a close observation of the assessment rolls as turned in and sworn to that in the whole city of Brainerd there are but \$315 worth of diamonds owned in this city. There are but 144 dogs that are laid claim to and which their owners are willing to pay taxes on. When it comes to pianos, where the ownership can be claimed by the daughter or some other member of the family whose exemption will cover it, there are 524 listed. In the listing of credits \$16,785 are turned in and 25 people own up to be possessors of automobiles. Verily, the personal property tax assessment is much of a fraud.

Yeomen Celebrate

There were great doings at the Yeoman hall last evening, the occasion being the initiation and open meeting as announced. There was a large crowd present, and addresses were given by C. E. Strawcopp, of Iowa, J. H. Murphy, of Owatonna, and J. H. Theale, of Staples. Mr. Theale has been made district manager which includes Brainerd. The Yeomen have two flourishing lodges in Brainerd and keep up numericality with the many fraternal organizations of which the city boasts.

Parson's Poem a Gem

From Rev. H. Stubenvoll, Allison, Ia., in praise of Dr. King's New Life Pills. "They're much a health necessity, in every home these pills should be. If other kinds you've tried in vain, USE DR. KING'S And be well again. Only 25c at all druggists. ttw

Ough.

A correspondent of an English paper points out nine ways of pronouncing the letters "ough." These are, written phonetically, as in coif, cauf (each is allowable), enuff, thaut, tho, throo, hiccup, the Irish lough and the Scot's pronunciation of ough, "such," the two final consonants in the last two words representing the corresponding gutturals in German. The editor in comment adds, "There is one other—'bough.'"

NEW AUTO STAGE

Enterprising Delivery Clerk Adopts Modern Mode of Travel to Mille Lacs

Jos. Wanderlich, the new mail carrier on the Garrison Brainerd route, has purchased a large automobile for his work with a large seating capacity, which, he thinks, will be in much demand. Mille Lacs lake and the lakes to the east and south are fast becoming popular with summer tourists, and there is much travel in summer and fall along the route and an automobile will surely shorten the distance as far as time is concerned. Mr. Wanderlich has a fine machine and is his own chauffeur.

On His Tenth Year

Carl Brockway, the only mounted carrier of the Brainerd postoffice, commenced his tenth year of service to Uncle Sam this morning. He is one of the oldest clerks, with the northeast portion of the city as his route. Mr. Brockway said that he could not tell how many hundreds of thousands of letters, papers, etc., he has handled, but he informed the Dispatch that he fully knows the route and the inhabitants of northeast Brainerd.

Houses For Rent by Nettleton

611 N. 10th 4 rooms, 7. 25t2

TOGO TO VISIT US.

Famous Japanese Admiral Will Be Uncle Sam's Guest.

Admiral Togo, the famous Japanese naval officer, hero of the great naval battle of the Japan sea, who is now in London attending the coronation, to which he is accredited as the special representative of his government, will come to the United States shortly to be the honored guest of the United States government. Congress will appropriate \$10,000 to defray the expense of entertaining the admiral while he is in this country.

The contemplated visit of the distinguished Japanese naval officer, who, according to critics, ranks with Nelson, Perry, Farragut and others on the roll of honor as a naval genius, was arranged after diplomatic exchanges between the Japanese foreign office in Tokyo and the state department in Washington. This government was asked if a visit from Admiral Togo immediately after the coronation in London would be acceptable and convenient, and the reply went back that this government would be delighted.

Admiral Togo will be received at the White House, where a formal dinner will be given in his honor, and he will be the guest at many other official functions in Washington and elsewhere.

SENDS KING A POEM.

Ninety-five-year-old Blacksmith Met King George's Father Many Times.

In his ninety-fifth year and still working every day at his blacksmith's forge, Edward Barrett of Middletown, Conn., composed a coronation poem and sent it to King George of England, whose father, Edward VII., Mr. Barrett says, he met many times when a young man. The final stanza of the blacksmith's coronation ode reads:

His cultur'd monarch will ban wrong;
For right he will supplant it;
All through his reign in his empire
Justice he'll prohibit;
His late calm sire, though king not long,
Effected some good changes;
Broad minded, courteous, affable,
Alike to friends and strangers.

Mr. Barrett wrote a poem forty years ago on the election of President Grant which so pleased the president's family that they gave Mr. Barrett money to send to Ireland for his family.

HOW TO BECOME INVISIBLE.

A Sample of the Mummery Used in Ancient Witchcraft.

Some curious formulas of ancient witchcraft are given in Mr. A. E. Waite's "Book of Ceremonial Magic." Here is a recipe for becoming invisible:

"Begin this operation on a Wednesday before the sun rises, being furnished with seven black beans. Take next the head of a dead man. Place one of the beans in his mouth, two in his eyes and two in his ears. Then make upon the head the character of the figure which here follows. (Omitted.) This done, inter the head with the face toward heaven, and every day before sunrise for the space of nine days water it with excellent brandy.

"On the eighth day you will find the eldritch spirit, who will say unto you: 'What doest thou?' You shall reply: 'I am watering my plant. He will then say: 'Give me that bottle; I will water it myself.' You will answer by refusing, and he will again ask you, but you will persist in declining until he shall stretch forth his hand and show you the same figure which you have traced upon the head suspended from the tips of his fingers. In this case you may be assured that it is really the spirit of the head, because another might take you unawares, which would bring you evil, and, further, your operation would be unfruitful. When you have given him your vial he will water the head and depart. On the morrow, which is the ninth day, you shall return and shall find your beans ripe. Take them, place one in your mouth and then look at yourself in a glass. If you cannot see yourself it is good. Do the same with the rest or they may be tested in the mouth of a child."

Covering His Tracks.

Mr. Gilbert Chesterton gave publicity to an amusing reminiscence. "I once remember," he wrote, "trying to soothe a lady upon whose drawing room carpet I had unintentionally left large tracks of London soil by telling her that perhaps if she watered them something would grow there, something fresh, fragrant and unexpected that would shame the flat and scentless flowers of the carpet."

Muslin Petticoats

Fine quality muslin petticoat, well made, finished seams, under dust ruffle, top flounce, made with eight rows of neat fine tucks, lace trimmed on the bottom. Well worth \$1.00.

ADDITIONAL LOCAL NEWS NOTES

(Continued from page 2)

is not so. The only part of shops to take a holiday is that of the car repair shops. They have been working full time for quite a long time and felt that they could afford it. No other part of the shops will close.

J. P. Saunders, one of the state foresters, whose headquarters are to be here, is in town. He informed the Dispatch reporter that 20 districts of the northern part of the state have been made and that his district is number 4, embracing Crow Wing county, and parts of Cass and Morrison counties.

Robert Lee, the gentleman of color, accused of burglarizing the safe of the Grand theatre of \$82, is out on bail. The amount of said bail is \$200 and the bondsmen are John Cochran, George Hess and George West. His case is to come up in police court on Monday morning at ten o'clock, and quite a number of witnesses have been subpoenaed by the state side of the case. The accused gentleman formerly worked in Cochran's barber shop.

At Crosby the 4th at 1:30 P. M. the sports, games, contests, etc., began, including a pie eating contest, sack and egg race, tub race, log rolling contest and numerous other amusements. A very interesting program has been arranged. wids

The Yakima, Wash., Herald has the following to say of a son of H. T. Skinner, formerly a resident of Brainerd: So far this season Charles Skinner claims the honor of catching the largest fish taken out of an irrigating ditch. The fish, which was caught from the Congdon ditch in Wide Hollow, about six miles from this city, measured thirty-seven inches from tip to tip, and is thought by those who have seen it to be a salmon because of its size.

Mr. L. Hohman, of the express office of the Northern Pacific of the city, met with a most painful accident last evening while unloading baggage from the belated Minneapolis train. Among the heavy amount of baggage consigned to this city was a farm mower which had been shipped by express in a most careless way. Mr. Hohman in handling it was severely cut across three fingers of his right hand, clear to the bone. The accident will evidently incapacitate him for a week.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENNEY & CO., Toledo, O. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

D'Orsay and His Tailor.

"D'Orsay, the Complete Dandy," as Mr. Tiegmouth Shore calls him in his biography, was fully aware of the value of his patronage to the tailors. When clothes arrived for him, in the most mysterious manner banknotes had found their way into the pockets. Once, when this accident had not happened, D'Orsay bade his valet return the garments with the message that "the lining of the pockets had been forgotten."

The Old, Old Story.

"What did you do when your husband told you the old, old story?" "I told him to shut up before he was half through."

"Why, what a funny way to reply to a confession of love!" "Oh, is that what you mean? I thought you meant the story he told last night when he came home from a time with the boys."—Houston Post.

Her Strong Chin.

Dawson—The facial features plainly indicate character and disposition. In selecting your wife were you governed by her chin? Spenlow—No, but I have been ever since we were married.

\$3.50 RECIPE CURES WEAK KIDNEYS, FREE

Relieves Urinary and Kidney Troubles, Backache, Straining, Swelling, Etc.

Stops Pain in the Bladder, Kidneys and the Back

Also
Wouldn't it be nice within a week or so to begin to say goodbye forever to the scalding, dribbling, straining, or too frequent passage of urine, the forehead

and the back-of-the-head aches; the stiffness and pains in the back; the growing muscle weakness; spots before the eyes; yellow skin; sluggish bowels; swollen eyelids or ankles; leg cramps; unnatural short breath; sleeplessness and the despondency?

I have a recipe for these troubles that you can depend on, and if you want to make a Quick Recovery, you ought to write and get a copy of it. Many a doctor would charge you \$2.50 just for writing this prescription, but I have it and will be glad to send it to you entirely free. Just drop me a line like this: Dr. A. E. Robinson, K33 Luck Building, Detroit, Mich. and I will send it by return mail in a plain envelope. As you will see when you get it, this recipe contains only pure, harmless remedies, but it has great healing and pain-conquering power. It will quickly show its power once you use it, so I think you had better see what it is without delay. I will send you a copy Free—you can use it and cure yourself at home.

Painful Frankness.
"And you think this hat becomes me?" asked the customer.
"Yes, I do, madam," replied the milliner.
"But it's very plain."
"Yes, it just suits your face, madam!"—Yankers Statesman.

The Humble Toad.
When the humble toad does lose his temper he gets hopping mad.—Palmist Spectator.

"What a Relief!"

Only the woman who has tried knows what comfort and relief a New Perfection Oil Cook-stove brings into the kitchen.

It is not only that the New Perfection cooks so well. It saves so much work in other ways. There are no ashes to clean up before going to bed; no fire to bank for the night. Everything is ready for cooking in the morning at a touch of a match.

You are saved from an overheated kitchen; saved from soot and dirt; saved from chopping wood and carrying coal. In the kitchen or the laundry, for the lightest or the most elaborate meal, you will find the New Perfection stove with the New Perfection oven is the best and most convenient.

New Perfection
Oil Cook-stove

GO INTO EFFECT JULY 1

Five Laws Passed by the Minnesota Legislature.

St. Paul, June 30.—Five new laws of general importance passed by the last legislature will go into effect July 1. They are:

Prohibiting the sale of "malt" outside of licensed drinking places or drug stores; creating a state department of weights and measures; prohibiting the sale of oleomargarine colored to imitate butter; prohibiting the marriage of first cousins; requiring rubber tires and casings to bear the name of the maker and date of manufacture.

FAVORS STATE FUND TO AID WORKING MOTHERS.

Brandeis, Anti-railroad Trust Lawyer, Would Insure Them.

Louis D. Brandeis, the anti-railroad trust lawyer, advocates a state insurance for prospective mothers.

"Maternity insurance must come, and it will," says Mr. Brandeis, ever ready to lay aside his countless cases to talk about the betterment of the status of the workingman.

"People are just beginning to realize the tremendous role that the mother plays in the world. People are just awakening to the fact that the mother, if for no other than a purely physiological reason, should be carefully preserved."

"My plan is that women should be forced in their own interest to become members of some society, preferably one under direct government control. In the event of her becoming a mother, and therefore being obliged to give up working for six weeks (by law), the mother would be entitled to draw on the fund for money."

"This is the point of 'maternity insurance.' It is a great step toward making motherhood not a period to be dreaded, but one that shall make every working woman feel her ability to outlive. Now the next step is to see that the mother and the child shall not suffer through lack of means caused by nonemployment."

"I think Massachusetts could do well to enact the first law in this direction. It would do more actual good than much talk, do more toward preventing 'race suicide' among the workers, do more toward making marriage an ideal state, not one to be dreaded, than anything else just now."

Unfeeling.
He—I dreamt last night your mother was ill. She—Brute! I heard you laugh in your sleep.—Tit-Bits.

Where to Worship

Broad Enough.
A large and stout woman called on a friend and while waiting for her was stared at so intently by the friend's little children that she asked one of them:

"What are you staring at, little girl?"
"Why, you see, mamma said you were so narrow in your views, and I was wondering what view she got."—Philadelphia Ledger.

HE GOT HIS PAY ENVELOPE.

Miner Climbed Six Hundred Feet Up Rough Siding of Mine Shaft.

Walter Finsley, a miner at the Horton shaft at Plains, Pa., climbed 600 feet up the rough siding of the shaft to the top in order to be in time to get his pay from the pay car.

He wanted to be hauled up in the cage, but the signal did not work, and fearful that he would miss his pay envelope, he started the hazardous climb. Halfway up the cage began working again, and he was in great peril, as there is only a small space between the cage and the wall of the shaft. Each time it passed him he pressed close against the side of the shaft and held on with all his strength to avoid being brushed off. Almost exhausted, he reached the top in time to receive his pay envelope.

New Use For Telephone.
Investigation of interruptions on a party telephone line in Manitoba, Canada, brought to light the fact that one of the women on the line was in the habit of taking the receiver of the telephone and using it for a darning egg in mending socks.

Startling Results Obtained by Senpina
New York—Thousands are taking advantage of the generous offer made by The Woodworth Co., 1161 Broadway, New York City, requesting an experimental package of Senpina, the great discovery for Asthma, Hay Fever, Bronchitis, and Catarrh, which is mailed free of charge to all who write for it. It is curing thousands of the most stubborn cases. It makes no difference how long you have been suffering or how severe the climatic conditions are where you live, Senpina will cure you.

If you have experimented with other treatments and have failed to find a cure do not be discouraged, but send for a trial of this wonderful truly meritorious remedy which is a scientific compound discovered by a professor of Vienna University, and is being recommended by thousands.
